## Management Service

For a low monthly fee, you get a full SharePoint team with all of the skills necessary to operate, maintain and develop solutions that help you accomplish your business goals.

**Nuvento** maintains the availability and performance of your SharePoint environments with Microsoft certified experts. We extend your team to maximize your capabilities and achieve your business goals.

**COST SAVINGS:** Make budgeting easier! The predictable monthly fee is significantly lower than the market rate to hire one SharePoint resource plus you'll eliminate the risk and overhead of hiring a full time employee.

**SERVICES:** We are an extension of your IT team that delivers increased capability and support while you retain access and control.

- ▶ Build & maintain farms
- ▶ Develop business solutions
- ▶ Knowledge transfer to your staff
- ▶ Manage SharePoint databases
- ▶ Remote monitoring of servers and storage, regardless of location
- ▶ Monitor and evaluate OS metrics
- ▶ Architecture, design, deployment and migration

**CAPABILITY:** We maintain Microsoft certified staff and development environments for all versions of SharePoint to ensure that you get optimal system performance and can realize return on your SharePoint investment.

**Hire us to run your shop so you can grow your business!**
